INDEX TO VOLUME LIX

TP 700
.A5

July 1 to December 31, 1893.

A

*Abstracts from Proceedings of the British Royal Institution. 6
Action of Ammonia Gas Upon Molybdenyl, by E. F. Smith and Victor Lehne. 294
Activity in the New River Coal Field, W. Va. 117, 187
Advantages of Shafts Over Slopes in Coal Mining. 404
Air, Compressed, Widening Use of, by W. P. Pressinger. 871
Air, Liquid, Transportation of. 877
Allen, L., Field of Domestic Engineering. 513
Amalgamation of the Russian Petroleum Industry, Proposed. 796
American Gas Light Association, Twenty-first Annual Meeting of. 614, 650, 686
Analysis of Lubricating Oils, by Thomas B. Stillman, Ph. D. 439
*Anhydrous Ammonia Gas as a Motive Power, by T. W. M. Draper. 506
Anthracite Coal, Use of Small Sizes of, for Generating Steam, by E. B. Coxe. 839
Anthracite Coal Waste, Report of Pennsylvania Commission on the Subject of. 188
*Apparatus for and Method of Propelling Producer Gases. 364
*Apparatus for Making Gas, Sutherland's. 231
*Apparatus for Manufacturing Gas, The Merrifield-Westcott-Pearson Improved. 544
*Apparatus for Promoting the Interaction of Gases, by Prof. George Lunge. 833
*Application of the Intense Heat of Gas to the Superficial Transmutation of Metals. 150
Arc Lamps, New Incandescent. 801
Artificial Production of Petroleum, by Dr. C. Engler. 695
Art of Mining by Fire, by A. L. Collins. 441
Atomic Weight, Relation of Specific Gravity to. 542
Austria-Hungary, Petroleum Industry of, by A. W. Eastlake. 47

B

Barber, C. M., Carbon and its Uses in Electrical Engineering. 758
*Beal's Gas Scrubber. 908
*Bell, A., Jr., Production of Illuminating Gas from Liquid Hydrocarbons by the Peebles Process. 326
Benefits to be Derived from the Formation of a Gas Association on the Pacific Coast, by J. B. Crockett. 146
Berlin Suggestions for the Electrical Congress. 333
Bituminous Coal, Small, Utilization of. 79
Board of Gas and Electric Light Commissioners, Decision of, in the Matter of the Quinsigamond Electric Power and Light Company. 81
Boilers, Heating with Refuse. 622
Boiler, The Hazelton or Porcupine, by Dr. A. W. Wilkinson. 578
Braidwood, J. F., Improved System of Working Inclined Retorts. 8
*British Royal Institution, Abstracts from Proceedings of. 6
Burmah and its Oil Fields. 440
Bye-Products of Coke, German Economy in. 401

C

Coal, Anthracite, Use of Small Sizes of, for Generating Steam, by E. B. Coxe. 869
Coal Dust Engine. 337
Coal Field of Logan, W. Va. 333
Coal Gas, Enrichment of, by Prof. Vivian B. Lewes. 43
Coal in Western Sweden. 726
Coal Mining, Advantages of Shafts Over Slopes. 404
Coal Mining in the First West Virginia District. 584
Coal Pit, Effect of Lightning on. 913
Coal, Price of, and Gas Undertakings, by Norton H. Humphrys. 837
Coal Production in 1892. 761
Coal, Stacking of, and Coal Haulage Machinery, by J. Chadwick. 867
Coal Washing Plant, The Luhrig. 910
Coal, Waste of. 658
Carbon and its Uses in Electrical Engineering, by C. M. Barber. 758
Carbon Dioxide as a Measure of the Efficiency of Ventilation, by E. H. Richards. 838
Carbonic Acid Gas and Hydrogen, Solomon's Process of Obtaining. 725
Carbonic Oxide, Is it Dissolved by Iron? 438
*Carburetor, The Collins. 40
Causes of Fires. 229
Cement for Steam Pipes. 185
Cement, Portland, Manufacture of, in China. 331
Cement, Portland, Testing of, by Pierre Giron. 760
Cements and Concrete, Hydraulic. 334
*Center Seal, Hearne's. 186
Central Stations, Development and Transmisson of Power from. 297
Chadwick, J., Stacking of Coal and Coal Haulage Machinery. 867
Chemist as a Factor in Foundry Practice, by H. O. Chute. 222
Chokedamp Effects and Their Prevention. 265
Coke, German Economy in Bye-Products of. 401
Collins, A. L., Art of Mining by Fire. 441
*Collins Carburetor, The. 40
Combination Heating, by George Hoffman. 874
Combustion, Smokeless. 550
Combustion, Spontaneous, by Prof. Vivian B. Lewes. 511
Commercial Production of Ozone. 191
Compressed Gas Cylinder, Explosion of. 841
Concentric Wiring and Safety Wiring. 118
Consumption of Gas. 477, 543, 583, 620
Cooking by Gas. 697, 762
Cooking by Gas, History and Development of, by A. Main. 367
Cost of Electrical Conductors. 546
Crockett, J. B., Benefits to be Derived from the Formation of a Gas Association on the Pacific Cost. 146
Coxe, E. B., Use of Small Sizes of Anthracite Coal for Generating Steam. 869
Currents of High Frequency, Physiological Effects of, by H. L. Jones, M. D. 331

D

Day Load in Electric Lighting Plants. 155
Decision in Respect to the Repairing of Incandescent Electric Lamps. 911
Description of New Gasholder, Toronto, Ont. 226
Deterioration of Incandescent Lamp Bulbs. 85
*Denny Lane, M. A., President of the Incorporated Gas Institute, Inaugural Address of. 2, 38
Depression of Manufacturing Industries. 406
Development and Transmission of Power from Central Stations. 297
Development of the Foundry in America the Past Thirty Years, by William Ferguson. 116
Differential Prices and Small Gas Undertakings, by Norton H. Humphrys. 434
Domestic Engineering, Field of, by L. Allen. 513
*Donkin, E. Bryan, Rotary Engines and Their Application to Gas Exhaustion. 74
*Doolittle, O. S., The Torsion Viscosimeter. 152
Doremus, C. A., Purification of Water, with Special Reference to Boiler Feed Waters and Prevention of Scale. 905
*Douglass, W. T., Lighting Estuaries and Rivers. 224
*Draper, T. W. M., Anhydrous Ammonia Gas as a Motive Power. 506
Drop Forgings at the World's Fair. 445
Dynamos, Output of. 371

E

Eastlake, A. W., Petroleum Industry of Austria-Hungary. 47
Effect of Lightning on a Coal Pit. 913
Effects of Strain on Machinery. 726
Electrical Conductors, Cost of. 546
Electrical Congress, Berlin Suggestions for. 333
Electrical Engineer and His Work, by George D. Shepardson. 364
Electrical Engineering, Carbon and its Uses in, by C. M. Barber. 758
Electricity as a Fire Hazard, by C. J. H. Woodbury. 41
Electricity, Heating by. 335
Electricty in the Home and Office, by F. A. C. Perrine. 220
Electricity, Testing Coal by. 337
Electric Insulation, Fire Risks In. 548
Electric Lighting Plants, Day Load in. 155
Electric Light, is it Friend or Foe to the Interests of Gas Lighting? by J. L. Hallett. 147, 183
Electric Light Work, Gas Engine as Applied to, by George A. Farwell. 290
Electric Search Light in Shaft Sinking. 583
Electrolysis and Water Pipes. 314
*Electrolysis of Gas Pipes, Something of Interest in Relation to 582
*Electrolysis of Underground Pipes. 619
Engineering, Field of Domestic, by L. Allen. 513
Engine Speed, Limitation of, by Charles T. Porter. 295
Engler, Dr. C., Artificial Production of Petroleum. 695
Enrichment of Coal Gas, by Prof. Vivian B. Lewes. 43
Enrichment of Coal Gas by the Hydro-Oxy Process. 622
Explosion as Proximate Cause of Loss: Explosion as Fire Loss 802
Explosion of a Compressed Gas Cylinder. 841
*Extracting Apparatus, An Improved. 332

EDITORIALS—

Absorption of the Forest City Chemical Company. 866
Adjustment of the Chelsea Gas Rate. 757
Against the Smoke Nuisance. 866
Albany (N. Y.) Council Refuses to Charter an Opposition Company. 101
Another "Investigation" of the Washington (D. C.) Company. 670
City Fathers and the Detroit Gas Company. 326
Coal Tar and the Tariff. 434
Coming-of-Age Meeting of the American Gas Light Association. 577
Death of Hon. Erastus Wells. 506
Death of Mr. Charles Place. 686
Death of Mr. George G. Porter. 145
Death of Mrs. Louisa Clement White. 902
Death of Mr. William Combe. 613
Decision of the Massachusetts Gas Commission in the Chelsea Case. 721
Detroit Gas Company Says "No." 470
Electric Lighting of the World's Fair. 649
End of the First Half of '93. 1
Field's Analysis for 1892. 2
First Annual Meeting of the Pacific Coast Gas Association 110
Gas Rate at Toledo, Ohio. 685
Gas Works and Labor Rates. 362
Lost, A Photometrical Equipment. 865
Making the Most of the Situation. 686
Matter of Publishing Proceedings of American Gas Light Association. 614
Measurement of Electric Currents. 794
Midway Plaisance and the Lighting Thereof. 2
Mr. E. H. Jenkins' Proposition for Unity of Action Respecting Tar Sales. 758
Mr. Francisco on the "Fallacy of Municipal Ownership," 362
Mr. Perrine's Pretty Picturing as to "Electricity in the Home and Office." 254
Mr. Reinke's Enriched Sewer Gas. 290
Mr. Vandenbergh's Mistake. 902
New York *Herald* and the New Holder at Sixty-fifth Street. 902
Nineteenth Annual Meeting of the Society of Gas Lighting. 901
Notes. 254, 326, 470, 722, 758, 830
Obituary, Mr. Edward Jones. 217
Obituary, Mr. William Combe. 649
Obverse to the Philadelphia Medal. 398
Opening of the Rate War in Brooklyn. 506
Our German Brethren and the World's Fair. 74
Output Comparisons for the Half Years Ended June 30, 1892-3. 325
Peoria Terminal Railway Company vs. The Peoria Gas Light and Coke Company. 463
Philadelphia Gas Bureau Report for 1892. 73
Philadelphia Gas Rate. 397, 542, 758
Pleasant Event. 146
Prepayment Gas Meter in the United States. 829
Proposed Gas Franchise for Kansas City, Mo. 290
Proposed Sale of the Philadelphia Gas Works. 794
Proposition to Put Coal on the Free List. 829
Resignation of Commissioner McDonald. 542
Results of the Chicago Meeting of the American Gas Light Association. 613
Retirement of Mr. George S. Hookey. 722

SPECIAL INDEX OF REPORTS OF PROCEEDINGS OF ASSOCIATIONS.

Initial Meeting, Pacific Coast Gas Association.

Constitution and By-Laws..... 182
Election of Officers..... 183
In Memoriam..... 220

PAPERS READ:

Benefits to be Derived from the Formation of a Gas Association on the Pacific Coast, by J. B. Crockett..... 146
Is the Electric Light Friend or Foe to the Interests of Gas Lighting? by J. L. Hallett..... 147, 183

QUESTION-BOX:

1. What is the name of the new Japan coal, and what is its value in gas and coke?..... 185
2. What has been done in firing regenerative furnaces with low grade coals to maintain heats, where coke is worth double the price of coal?..... 218
3. What are the results from tar firing of regenerative furnaces?..... 218
4. What is the yield per pound in candle feet from Australian shale and Kentucky shale?..... 219
5. Why should gas companies handle gas stoves?..... 219
6. As to the proper and most economical methods of using iron sponge..... 219
7. Is naphthaline deposited more in works using jets than in those using fans?..... 220
8. Are mechanical exhausters ru . with less steam to obtain the same results than from jets?..... 220

Reading Communications..... 183
Roll Call..... 182
Votes of Thanks..... 220

Twenty-first Annual Meeting, American Gas Light Association

Address, President's..... 616
Committee on Place of Next Meeting, Appointment of..... 653
Committee on Place of Next Meeting, Report of..... 654
Committee on President's Address, Appointment of..... 619
Committee on President's Address, Report of..... 653
Council, Report of..... 614
Election of Officers..... 616
Election to Membership..... 614
Finance Committee, Report of..... 692
New Members, Election of..... 657
Officers, Election of..... 616
Officers-Elect, Responses of..... 616

PAPERS READ:

*Gas Engines in the United States, by F. H. Shelton..... 686, 727, 763, 797
Mathematical Analysis Applied to Photometrical Observations in Legal Cases, by F. B. Wheeler..... 656
Rate of Purification, by J. A. P. Crisfield..... 653
Rate of Temperature to Purification, by James Somerville..... 654
Revivification of Iron Oxide, by George Treadway Thompson..... 650

QUESTION-BOX:

1. Can anyone give any information concerning prepayment meters, such as are now somewhat largely used in Europe?..... 692
2. Have any experiments been made in the direction of prepayment meters in this country?..... 692
3. What can be said for and against the use of gas heating stoves which are not connected with a flue?..... 692
4. As to the use of gas engines in the operation of electric lighting plants..... 693
5. What are the weak points in the use of gas engines in electric lighting plants?..... 693
6. At what relative prices (per barrel and chaldron) can tar be economically substituted for coke in firing benches when coke is in good demand?..... 693
7. How many gallons of tar are required in practice to carbonize 2,000 pounds of coal?..... 693
8. Is it good policy for a gas company to go into the gas-fitting business?..... 693
9. Have any of the members had any special experience with the effects on gas mains and services of electric currents used by street railways?..... 693
10. What action can be and should be taken by gas companies for self-protection in the above-mentioned matter?..... 693
11. Why are electric light annexes to gas works in most cases so unprofitable?..... 693
12. What kind of material gives best results in superheaters for fixing gas in cupola sys em?..... 694
13. As to the use of anthracite coal in the manufacture of water gas by the Granger-Collins machines..... 694
14. What is the present cost of cooking and heating with electricity as compared with gas?..... 694
15. What is the usual practice as to cleaning up stocks of coal and coke?..... 694
16. At what point in the comparative values of coal and coke is the limit at which it is economical to adopt regenerative furnaces?..... 694
17. In an apparatus for making carbureted water gas, to what degree should naphtha be preheated before admisson?..... 694
18. With a generator using anthracite coal, what are the best preparations and durations for times of blast and runs? What lengths of time when using coke?..... 694
19. What is the effect on the production of ammonia by a change from direct firing to regenerative benches? What the reduction in the production of tar?..... 694
20. Is there any increase or decrease in deposition of naphthaline in purifier boxes when admitting air for revivification *in situ*?..... 694

Report of Committee on Place of Next Meeting..... 654
Report of Committee on President's Address..... 653
Report of Council..... 614
Report of Finance Committee..... 692
Report of Secretary..... 657
Report of Treasurer..... 657
Reports of Special Committees..... 615
Responses of Officers-Elect..... 616
Roll Call..... 614
Telegrams and Letters..... 691
Votes of Thanks..... 694
